**Total Estimated Predictable Cost:** **\$130,000 - \$155,000**

### **Other Additional Fees:**

**IVF / Egg Donor / Clinic Medical Fees: \$20,000 - \$50,000**

All costs associated with the IVF procedures, egg donors or IVF Centers, including but not limited to medical testing, screening, laboratory, medications, ultrasounds, and doctor visits (whether for Intended Parent(s), Egg/Sperm Donor or Gestational Carrier) are in addition to this fee structure and will be paid directly to your doctor and/or clinic. Please contact your clinic for a complete listing of additional costs. We will be happy to assist you in obtaining your clinic's fees for your Gestational Carrier's medical appointments and procedures, as well as referring you to an Egg/Sperm Donor agency.

**International Newborn Insurance: \$10,000-\$120,000**

Also, not included in the above estimated fee is Newborn Insurance. Newborn policies are cost containment programs that coordinate provider negotiations and payments of newborn medical expenses incurred from the delivery, in-patient services in the hospital, and potentially out-patient needs following discharge from the hospital. Plans are professionally managed, providing protection from high newborn care costs due to complications.

**DISCLAIMER: The information in this fee structure is meant to assist you in planning your surrogacy and is only an estimate. There are many factors that determine the overall cost of a surrogacy. Yours may cost more or less depending on your circumstances. These amounts are subject to change without notice.**
